Print-then-cut sheet • for iron-on transfer paper, mirror when printing

Sheet 2 — Designs 7–12

Print-then-cut sheet • for iron-on transfer paper, mirror when printing

HOW TO USE

Cut, Press & Party

Cricut, Silhouette and print-then-cut tips

1

Unzip the download

You'll find 12 SVG files plus a README. Keep the PDF for print-then-cut.

2

Upload to your software

Cricut Design Space: New Project › Upload › Browse. Silhouette: File › Open (Designer Edition imports SVG).

3

Size it

Adult tee ~10–11 in wide, kids 8 in, baby bodysuit 5 in, champagne flute 2.5 in, party banner 12 in+.

4

Mirror for iron-on

Turn Mirror ON for heat-transfer vinyl, place shiny side down, cut, then weed.

5

Press

Follow your vinyl's temperature/time. Peel warm or cool as directed; wash inside-out after 24 h.

6

Make a matching set

Use 'Countdown Squad' or 'New Year Crew' for the whole family and 'My First New Year' for baby.
